EVERY SIGN IS A BLANK CANVAS

Brighten your event!

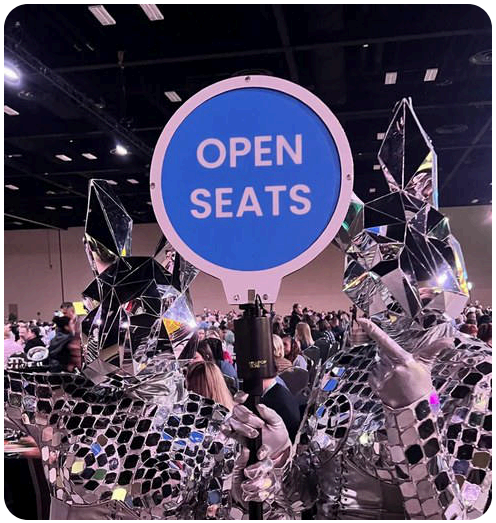

A Lollipop Sign is a hand-held event sign built on a reusable frame system. Your artwork is printed in full color on both sides, and the frame carries it above the crowd on a 60-inch hand-held monopole or a 58-inch free-standing tripod.

The LED signs are battery-powered. No cords, no outlets, no setup. Each runs 4,500 lumens of zero fall-off backlighting, so it reads in any light. Event staff use them for wayfinding, sponsor activation crews for brand visibility on the floor, and hospitality teams for VIP routing.

Buy the frame once, reprint graphics for every event. When the sponsor, the venue or the year changes, reorder the graphics for $34 per sign and put the same frame back to work.

This catalog covers the full line: LED illuminated and non-illuminated Lollipop Signs, printed paddles, Grabit Signs in eleven standard shapes, recyclable paper banners, accessories and blank paddles you print yourself.

Grabit Signs

A Grabit Sign is a printed panel, not a frame. The artwork runs full-bleed to every edge and the outline is yours. Eleven standard shapes plus custom, from speech bubbles to pointing fingers. Built for trade show booths, hotel meeting rooms, and brand activations. Choose the shape, choose the attachment. The panel twists on and off by hand, no tools.
